Full job description

Job Title: Power BI Developer

Work Mode: Hybrid

Location: Bangalore

Experience Required: 0-3Years

Notice Period: Only April joiners (Immediate or serving notice with LWD in April)

About the Role:

We are looking for an experienced Power BI Developer to join our analytics team. The ideal candidate will be responsible for designing, developing, and optimizing interactive BI solutions that enable data-driven decision-making across the organization.

Key Responsibilities:

- Design and develop Power BI dashboards and reports with a strong focus on performance and usability.
- Build and maintain robust data models aligned with business requirements.
- Write complex DAX measures including CALCULATE, time intelligence, and optimization techniques.

- Perform performance tuning and report optimization for large-scale datasets.
- Write advanced SQL queries for data extraction, transformation, and validation.
- Manage Power BI Service, including workspace management and deployment pipelines.
- Collaborate with stakeholders to gather requirements and translate them into BI solutions.
- Work in Agile environments and participate in sprint planning and reviews.

Required Skills & Qualifications:

3+ years of overall experience with strong expertise in Power BI.

- Excellent understanding of data modeling concepts.
- Strong hands-on experience with DAX and SQL.
- Experience handling large and complex datasets.
- Strong communication and stakeholder management skills.
- Experience working in Agile/Scrum development environments.

If you are passionate about data analytics and meet the above criteria, we would love to hear from you.

Job Types: Full-time, Permanent

Pay: ₹2,000,000.00 - ₹2,500,000.00 per year

Experience:

- Power BI: 3 years (Preferred)

Work Location: In person
