WORK EXPERIENCE

Power BI Developer | Data Analyst Technomold IT Solutions PVT LTD

05/2023 - Present

Bangalore

Achievements/Tasks

- Worked on end-to-end project, Experience in Power BI and Developing Visualization Reports.
- Connected to various data sources such as BigQuery, Azure SQL, Excel, and APIs using Power BI and Power Query for robust data transformations.
- Created and optimized complex DAX measures and calculated columns to support custom visualizations, trend analysis, and time intelligence reporting (MTD/QTD/YTD).
- Optimized Power BI data models by using star schema design, aggregations, and incremental refresh to ensure scalability and performance across large datasets.
- Collaborated with cross-functional teams and stakeholders to gather requirements and deliver impactful BI solutions that improved data-driven decision-making.
- Ensured data accuracy and consistency across all reports by validating sources, applying data cleansing techniques, and implementing quality checks.
- Supported sales analytics and lead tracking reports that enabled marketing and business development teams to improve lead conversion by 40%.
- Hands-on experience with Big Data technologies, including Spark, Hive, Hadoop, and Snowflake, for data modeling and transformation of high-volume datasets.
- Familiar with row-level security (RLS) and object-level security (OLS) implementation for data governance.
- Communicated effectively with cross-functional teams, translating business requirements into technical deliverables, and planning solution delivery with strong organizational skills.

Process Analyst Aiplex software Pvt ltd

08/2022 - 03/2023

Bangalore

Achievements/Tasks

- Worked on Various BI Projects, created reports and dashboards using Power BI and Excel

EDUCATION

Bachelor of Science (B.Sc.) Bangalore City University

06/2019 - 07/2022

89%

SKILLS

PowerBI

SQL

Big Data

DAX and M Queries

PERSONAL PROJECTS

RetailPulse Sales Dashboard

- Developed an interactive Power BI Sales Analytics Dashboard for Kaufland Germany, enabling performance tracking across products, regions, and time periods. Designed optimized data models using star schema, implemented DAX for KPIs and time intelligence, and created drill-down visualizations for business insights.

Data science Models Production Dashboard

- This Dashboard was created to track the performance of the Data Science models in the production. This helped the stakeholders to see which model is performing good & models which needs attentions so they can improve its efficiency.

ACHIEVEMENTS

Designed and deployed over 20+ interactive Power BI dashboards

Improving business decision-making speed by 40% for sales and marketing teams.

Data Quality Automation with Python

Built scripts to validate and cleanse large datasets, reducing errors by 40%.
